

International Journal of Computational Engineering Research (IJCER)

ISSN : 2250-3005

Contents :

Predicting the Future of House Price: A Cutting-Edge Data Science Approach	140-146
Novel Car Parking Detection System using Convolutional Neural Network (CNN)	147-152
Algorithmic Strategies in Recommender Systems: A Comprehensive Study of Content-Based and Collaborative Filtering Techniques on a Custom-Curated Movie Dataset	153-171
The Impact of Digital Empowerment on Entrepreneurship —A Multi-Case Study from the Perspective of "Mass Entrepreneurship and Innovation"	172-179
Analysis of Factors Affecting Screen Reading Efficiency and Countermeasures	180-182
Automated Face Recognition for Attendance Using Convolutional Neural Network	183-189
Contactless smart attendance system using facial recognition and QR code	190-195
Innovative Modifications in Porous Asphalt: The Role of Nano CaCO₃ and Buton Granular Asphalt in Enhancing Porosity and Strength	196-202
Leveraging Machine Learning for Personalized Insights and Interventions in Fitness Applications	203-208
CBSA: Clustering Based Sorting Algorithm	209-212
The Influence of Financial Literacy on Personal Financial Management Competence through the Financial Attitude of SME Owners in Ambon City	213-217
The Influence of Financial Literacy and Inclusion on Financial Management (A Case Study of Students of Graduate Program in Management at Universitas Pattimura Ambon	218-221
Farming Project in a Community Using Irrigation Technology and Clean Energy	222-225
IBD1Mk-means: Initialization Based D1 Method for k-means Clustering	226-231
SCRIPT 2 SCREEN – A system that converts written scripts to dynamic visual content	232-235
Operationalizing AI with MongoDB Atlas to Streamline Scalable NoSQL Intelligence	236-241
